The movie is based on the popular manga and anime series and is made for children and young adults, however it doesn't matter as the book that the movie is based on is also written for children. The story centres around three girls, Haley, Lucy and Megan, who are being babysat by Emily, a vampire. However it soon becomes apparent that Emily is very different to other vampires. They soon find out that Emily is not just a babysitter. She is the Queen of the Coven, and she has to choose a date for her wedding. It is revealed that vampires cannot have relationships, and if a vampire is found to be having sex with a human then they are sentenced to death. The girls must decide if they want to be involved in Emily's wedding, but if they do it could be very dangerous for them. My Babysitter's a Vampire is a gentle, funny and somewhat scary story about love, vampires and what people can do to each other.
